2 Wire Video power supply

- Video/Audio 30V DC power supply
- DIN rail mount or standard fixings
- Internal electronic protection
- For use in Elvox 2 wire systems only

Brand

General Information

This is a Video/Audio power supply for Elvox 2 wire due fili + systems. The power supply incorporates internal protection against faults on the outputs. Input voltage can be 100 to 240V AC. The unit can be mounted on DIN rail (60715 TH35) or can use standard fixings which are supplied.

The power supply is Class 11 insulated and is protected to IP30

This item complies with:

SELV-EN60950-1

Specifications

System	2 wire due fili +
Input:	
Operating Voltage	100 to 240V AC (12W)
Rated Current	1.2A (100V) 0.6A (240V)
Temperature range	-5°C to +35°C (Indoor)
Power Dissipation	15W
Frequency	50/60 Hz
Output:	
Rated voltage	28V DC Nominal
Rated Current	1.6A Max (1.0A continuous + 0.6A intermittent 30s ON and 120s OFF)
Casing Material	Class V0 UL-94 Polymer
Dimensions	108 x 106 x 63mm

Form : 40110
